Portfolio (soon update with new) | Jaipur, Rajasthan

SUMMARY

My honest summary: A 20-year-old, highly driven **3rd-year B.Tech student** specializing in **Cybersecurity** and **AI**. With advanced **C++** and OOP skills, I've successfully completed over 10 diverse projects, including game logic, file handling, a browser error thrower, and a bash tool replica. My experience also spans web development, basic cloud computing, and SQL. Despite a failed attempt to monetize a YouTube channel, my passion for innovation, out-of-the-box thinking (recognized twice in Shark Tank), and strong leadership skills remain. I am eager to contribute to cutting-edge environments like Mnemonic AS or Funcom in Oslo, Norway.

SKILLS

Programming: C++ (Advanced, OOP), SQL (Level 1)

Cybersecurity: Bash Tooling, MITM Attack, Phishing, Cookies Snooping, Linux Tools

Development: Game Development (Basics), Web Development, SDLC, Git, GitHub

Concepts: Artificial Intelligence (Pro Level), Cloud (Beginner)

Soft Skills: Leadership, Out-of-the-Box Thinking, Communication, Time Management, Analytics, Teaching

WORK EXPERIENCE

Freelance Web Developer | Self-Employed | Jaipur, Rajasthan

Ongoing (2 years experience)

Successfully delivered **2 paid web development projects** for clients, managing the full lifecycle from requirements to deployment.

Self-Employed | Jaipur, Rajasthan

December 2024 – Present

Proactively engaged in independent development and research, consistently expanding expertise in emerging technologies.

PROJECTS

E-commerce Web & Game Selling Platforms: Engineered original e-commerce and game selling web applications (no replica).

C++ Games: Developed diverse games including Pong, Casino, and Shark Game, applying core game logic and OOP.

C++ Utilities: Built a Scientific Calculator, Student/Library Data Management Systems (SDMS+LDMS), and a Browser Error Thrower.

Bash Tool Replica: Created a functional command-line tool replica combining Bash scripting, Python, and AI.

Portfolio Website: Showcased diverse technical projects and web development proficiency.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering | Sri Balaji College of Engineering & Technology (RTU) | Jaipur, Rajasthan

Currently in 3rd Year (Expected Graduation: 2026)

Current GPA: 7.44/10.0 (1st Year)

Higher Secondary (12th Grade, PCM) | Mehta Public School | Jaipur, Rajasthan
